

Matsqui's Cruickshank Federal Liberal Choice

NO OTHER CANDIDATE SUGGESTED BY F. V. CONVENTION ATTENDED BY MORE THAN 200

George Cruickshank of Matsqui received the unanimous nomination Tuesday of the Fraser Valley Federal Liberal Association as candidate in the next Dominion election. No other candidate had even been heard mentioned prior to the nominating convention held in Mission City and no alternative name was offered by any of the more than 200 persons assembled in the Canadian Legion auditorium for the occasion.

There was one large and representative audience at least which was satisfied that the member for the constituency had, as speakers observed, "made the Fraser Valley known from one end of Canada to the other" and which agreed that "almost any evening in the week it could find proof in the evening papers that its representative was on the job."

Nomination of George Cruickshank, whom she had known from boyhood, was happily made by Mrs. Hannah Fraser of Abbotsford and was promptly seconded by Fred Menzies of Chilliwack.

No other name being offered to the convention on the call of Rex Cox of Mission City, chairman, the nomination of sitting member was declared unanimous.

Little in the way of praise or support of the Federal Member was voiced prior to the nominating convention, apparently having been considered entirely unnecessary on that part of the program. It came after applause and musical honors had been accorded the candidate and was accepted in a most contented manner by the assembled delegates.

Flight-Lieut. James Sinclair, MP, RCAF veteran of this war who has formed a strong and reciprocated attachment for George Cruickshank MP, veteran of Great War I, making a team frequently heard from in House debates on matters concerning the Services, Labor, Agriculture and disposal of the Japanese, was the principal visiting speaker. He gave first-hand account, as parliamentary roommate, of George's "week-after-week pounding away" on behalf of the berry growers of the Fraser Valley and other exploits. Even this appeared to be accepted by the attentive assembly as only a just tribute to the "fighting" member from the Fraser Valley.

The dual meeting, which embraced both nominating convention and annual meeting of the association, confined itself almost entirely to matters concerning the constituency. Beyond passing resolutions of confidence in Prime Minister Mackenzie King, expressing faith in his continued ability to "carry Canada's war effort to a satisfactory conclusion" and to "assist in establishing an honorable and lasting peace," and a vote of confidence in Hon. John Hart, premier of British Columbia, the meeting concerned itself principally with home affairs such as rehabilitation of men and women returning from the Services, the Japanese question, fruit marketing, etc. Resolutions dealing with these subjects, as reported, in other columns, were passed unanimously.

Self-admittedly "never accused of modesty," George Cruickshank reviewed his Ottawa activities in a half-hour address which was, nevertheless, factual and brief. Admitting also that it had been necessary "to fight every inch of the way," he outlined his efforts, declaring that he was proud of his fight "on the Japanese question," emphasizing that "never will we have an opportunity like the present to see that the Japanese do not come back."

Canada has led the world in price control, the Family Allowance Act and Soldiers' Gratuity Act passed unanimously by the House, the Unemployment Act

FIVE NEW TRACTORS ARRIVE M-S-A AREA; FIRST SINCE 1941

The first since 1941, Abbotsford Motors Tuesday unloaded seven new Ford tractors, four plows, two cultivators and one mower for farmers in this section of the Fraser Valley.

Two of the tractors are for delivery to a Langley sales firm. The five tractors for M-S-A farmers go to: Charles Smyth, RR 1 Abbotsford; Moses Zanatta, RR 2, Abbotsford; George W. Fadden, RR 2 Abbotsford; Norman Towe, RR 2 Abbotsford; and C. M. Jeffrey, Aldergrove.

LAC Bill Beestestone, ITS, at Pearce, Alberta, and Mrs. Beestestone and daughter are visiting the former's parents, Mr. and Mrs. H. E. Beestestone at Huntingdon.

had proved its worth—even in this constituency, and that there were too many rural riders represented by professional men, were among the member's points.

Confident of Trust

He had tried, Mr. Cruickshank said, to be a good member and he had no doubt where any farmer, serviceman or woman or parent of those in service would place their trust if asked to make a choice between a Saskatchewan school teacher and George A. Cruickshank.

CONVENTION EXTENDS GREETINGS TO MEN, WOMEN IN SERVICES

On motion of Fred Grimmett of Chilliwack, the Fraser Valley Federal Liberal convention held in Mission Tuesday afternoon extended greetings to the young men and women in the Armed Forces through the following resolution:

"Whereas a large number of our boys and girls are now serving their country in the navy, army, air force and merchant marine, and

"It is therefore resolved that this convention extend greetings to our boys and girls in the armed forces and may God speed an early return to home and loved ones."

REX COX HEADS F. V. FEDERAL LIBERALS

Officers elected by the Fraser Valley Federal Liberal Association in their first meeting in almost five years, which preceded the nominating convention held in Mission City Tuesday afternoon, are as follows:

Honorary President, Rt. Hon. W. L. Mackenzie King; honorary vice-presidents, Hon. John Hart and Hon. James Sinclair, MP; President, Rex Cox of Mission City; vice-presidents, Arthur Rundle of Chilliwack and E. Cummings of Harrison Hot Springs.

CONTINUATION OF B.C. AND FEDERAL SUPPORT OF AGRICULTURE URGED

Fraser Valley Liberal Association, in annual meeting in Mission Tuesday, congratulated by resolution Federal and Provincial governments on "their past efforts and achievements on behalf of agriculture" and urged upon them that both continue "their splendid contributions to the cause of agriculture in the great task of the winning of the war."

The resolution referred to assistance to agriculture "not only by wise legislation but also by financial contributions in the way of bounties to under-priced farm commodities such as milk, canning corn, peas, beans and kindred products." It also noted that the two governments had collaborated to relieve the farm labor situation and that the farmers had "responded nobly by very greatly increasing agricultural production."

INSURANCE FEATURE IN VETERANS' LAND ACT IS ADVOCATED

Unanimously endorsed at the annual meeting and nominating convention of the Fraser Valley Federal Liberal Association in Mission Tuesday, was a resolution stating:

"That we petition the Federal Government at Ottawa to insert an insurance clause in the Soldier Settlement Land Act so that in case of a soldier's death during the period of the contract his dependents would be freed of all further liabilities under the contract."

PLUM, PRUNE PRICE CEILING 12 CENTS; TO GROWERS 6 1/2c

Retail ceiling for fresh plums and prunes of 12 cents per pound was announced by the Wartime Prices and Trade Board. It is effective now.

Schedule of ceiling prices follows: Growers' maximum selling price to packer or wholesaler is 97 cents per standard box or 6 1/2 cents a pound; shippers or packers, \$1.07; wholesalers, \$1.34 per box f.o.b. Vancouver, and retailers' \$1.78 a box, or 12 cents a pound.

If selling directly to the consumer, growers may ask a maximum price of \$1.43 per box, or 10 cents per pound.

Would Remove All Japanese From Canada

Moved by D. W. Strachan of Mission and E. M. Handy of Dewdney, a resolution advising the Federal Government to remove all persons of Japanese ancestry from Canada was unanimously endorsed by the joint annual meeting and nominating convention of the Fraser Valley Federal Liberal Association held in the Legion auditorium, Mission City, on Tuesday afternoon. There were more than 200 persons in attendance from all parts of the constituency between Pitt Meadows and Hope.

"The very comprehensive resolution adopted follows: 'Whereas the national laws of Japan claim the right to control of all its nationals until after their obligation to military service has expired, and whereas a child is regarded as Japanese, if its father is at the time of its birth, a Japanese, and whereas the male of full age of 17 years or upwards does not lose Japanese nationality or unless he has completed active service in the Japanese army or navy:

"And whereas the entire influx of Japanese and their offspring were mostly domiciled in British Columbia, grouped in colonies where they assumed complete dominance in civil and local life to the hazard and detriment of Canadian standards so essential to our freedom and progress:

"And whereas native Japanese work for starvation wages, until such time as they secure partial or complete control of their chosen vocation, all to the detriment of Canadian labor,

"And whereas the cowardly attack of the Japanese government on our good neighbor, the United States of America, at Pearl Harbor, brought Canada instantly to war against Japan:

"And whereas it was necessarily deemed by our government as a result of this act of treachery, most essential to our safety that we immediately remove all Japanese from British Columbia,

"And whereas the Japanese have treated our interned Canadian citizens and prisoners of war with the utmost brutality and bestiality:

"Therefore be it resolved that we, the Fraser Valley Liberal Association, assembled in honorable convocation, do hereby petition our government:

"(1) Never again to allow any future settlement of Japanese in the Dominion of Canada, and that at the end of the war, or sooner if possible, all employers be forbidden to employ persons of Japanese ancestry;

"(2) That we advise our Government in the opinion of this body that immediately following this war, all persons of Japanese ancestry be removed from Canada;

"(3) That in the meantime no person of Japanese ancestry be allowed to carry on business in British Columbia either directly or indirectly;

"(4) That in the meantime no person of Japanese ancestry be allowed to hold, own, or lease land or any interest in land, or in any body corporate directly or indirectly and that any land or interest in land or in any body corporate held by such person of Japanese ancestry or by any agent or trustee in trust for him be forthwith forfeited to the Crown."

PRO-CONS RE-ELECT TAYLOR PRESIDENT M-S-A ASSOCIATION

At a meeting Monday night in Abbotsford of the M-S-A Progressive Conservative Association Harry H. Taylor of Mt. Lehman, was re-elected president. R. Topper of Abbotsford was named vice-president and L. J. Kettle of Poplar was elected secretary. Executive members chosen are Mrs. A. McPhee, M. M. Shore, A. E. Gledhill, A. McMath, M. Graham, Mrs. H. E. Taylor, Mrs. T. York and D. Blacklock.

ABBOTSFORD COURT

For making U-turns at the intersection at the Atangard Hotel corner in Abbotsford, Steve Karafa and Chas. Jetter were each fined \$2.50 and costs in Abbotsford police court. For having no driver's license, Arthur Paul of Chilliwack paid \$5 and costs. Frank J. Canning of New Westminster and J. C. Liddell of Vancouver each paid \$2.50 and costs for parking in a prohibited zone in Abbotsford.

Clarence Weisner, RCN, Matsqui, is home on leave.

WORKMAN FATALLY HURT IN FALL DOWN CLAYBURN CO. SHAFT

Mike Zjaba, 52, died in M-S-A Hospital Tuesday after sustaining serious injuries in an accident at Clayburn Brick Company plant, Kilgord. Zjaba is reported to have fallen 20 feet down an elevator shaft sustaining a broken back and internal injuries. An inquest will be opened by Coroner E. T. Weir at 5 p.m. today, Wednesday. Called to serve on the jury are: Thos. Akins, Geo. Gough, Jos. Heath, F. W. Thompson, Gordon Pearson and Dan Stein.

40 JUNIOR FARMERS OF MATSQUI, SUMAS ATTEND FIELD EVENT

Forty junior club members of Sumas and Matsqui clubs attended the field day held Thursday at the Swift Canadian plant in New Westminster and at Colony Farm, Essondale. They were taken in a school bus.

Matsqui Holstein and Guernsey calf club leaders Jim Reid and H. A. Borg, and Sumas Holstein, Jersey and Guernsey club leaders Dan S. Heelas and Pat Reid, accompanied their future farmers to the event.

Complete story of the day is given in page three.

Big Plans Here For Jr. Farmers

"Plans for the Junior Farmers' Fair, to be held in Abbotsford Saturday, Sept. 9, are progressing favorably," according to an announcement by Matsqui Councillor L. J. Kettle, secretary of the Central Fraser Valley Fairs Association, sponsors of the event.

At a recent meeting of the Finance Committee a prize list was set up for open events which will include:

PRO-CON NOMINATING CONVENTION DATE CHANGED TO SEPT. 20

Permits Attendance Of Howard Green, MP

Fraser Valley Progressive Conservative Association which previously announced a nominating convention and annual meeting for Sept. 6, has found that this date was already fixed for the holding of the annual Agassiz fair and in order to permit a good representation to attend from that area, it has decided to postpone the meeting for two weeks.

It has now been fixed for Wednesday, Sept. 20, at 2 p.m. in the Canadian Legion hall, Mission. The annual general meeting for the election of officers will be held at 1:30 p.m. at the same place on the same day.

Another reason for the postponement is that the invitation to Howard Green, MP, to be a guest speaker was accepted upon the condition that the meeting be postponed to permit his return from the B.C. tour with John Bracken.

The name of W. A. Jones, reeve of Kent Municipality, is still receiving prominent mention as a possible candidate. It has also been suggested that some well known agriculturist in the Chilliwack district should be brought forward.

PO 'CLEVE' STORDY KILLED OVERSEAS

PO V. C. (Cleve) Stordy, 23, son of Vernon C. Stordy, Abbotsford drygoods merchant, and Mrs. Stordy, who makes her home in Vancouver, was reported killed on active service August 15.

PO Stordy was born in Alberta, and attended high school in Vancouver. He spent a number of his summer vacations in Abbotsford. He enlisted with the RCAF in June 1940; trained in eastern Canada for a year and a half, and was stationed on the west coast for another two and a half years before going overseas in March.

ON LEAVE AFTER OPERATIONS TOUR

After more than two years of overseas service as observer on a bomber, Flight-Lieut. R. W. (Bob) Webster will arrive in Abbotsford Thursday morning for a month's leave. He has completed his operations tour.

Webster was returned to Canada recently and leave was granted at Ottawa.

FL Webster enlisted in the air force soon after the outbreak of war. He is the son of Mr. and Mrs. E. Webster, Abbotsford.

BIRTHS

DE PROY—To Mr. R. L. De Proy, RCNVR, overseas, and Mrs. De Proy (nee Joyce Berry) on Aug. 18, a son, Douglas Edward. "Both doing well, also the much elated grandfathers, W. J. Berry and B. De Proy."

PENNER—To Mr. and Mrs. Cornelius Penner of Abbotsford on Aug. 19, a son.

LINDSAY—To Mr. and Mrs. Thomas Lindsay of Abbotsford on Aug. 20, a son.

FOSTER—To Mr. and Mrs. Russell Foster (nee Rhoda Mailes) at St. Joseph's Hospital, Comox, a son.

NEWEST VILLAGE

Lake Cowichan, Vancouver Island community of 650 population, was given permission this week by government order-in-council to organize as a village and prepare for its first election in December.

H. A. KELLINGTON

The Brackman-Ker Milling Co. Limited announce the promotion of Harold A. Kellington to the position of assistant purchasing agent. Harold has been an employee of the company for over 14 years and has a wide circle of friends in the Fraser Valley. He started as a member of the retail sales department at New Westminster. From this position he became branch manager at each of the following centres: Coquitlam, Haney and Cloverdale.

Month of Free Electricity for Fraser Valley

A reduction in electric light rates involving considerable saving to residents of the M-S-A Area and more than \$1,000,000 to consumers on Southern Vancouver Island, the Lower Mainland, Port Alberni and Kamloops will go into effect as a result of an Order-in-Council passed by the provincial government on the recommendation of the Public Utilities Commission, it was announced Saturday by Premier John Hart following a meeting of the executive council.

Since the rates were reduced last fall, the public utilities commission has been continuing its investigation of the operations of the British Columbia Electric Railway Company Limited and its subsidiaries. As a result further reductions will be given to consumers this year on a non-billing basis.

In 1945 Also

The public utilities commission are arranging a new schedule of rates to be promulgated on Jan. 1, 1945, for Southern Vancouver Island, Port Alberni and Kamloops. The commission also has given assurances that while it is not in a position to recommend a new schedule of rates for the Lower Mainland, temporary reductions undoubtedly will be given in the form of a non-billing period for that area.

Premier Hart, in making the announcement, stated that the reductions will be effective as follows:

Southern Vancouver Island, Port Alberni and Kamloops: a two-month non-billing period to commence October 20 this year.

A one-month non-billing period for Greater Vancouver and the Fraser Valley commencing November 20.

A reduction in the monthly rate to consumers on Southern Vancouver Island, Port Alberni and Kamloops, assured commencing January 1, 1945.

Temporary reduction in electric rates (Continued on Page Six)

BEAN PICKING IN FULL SWING IN M-S-A AREA

No Shortage of Pickers Reported

Bean picking is now in full swing in the M-S-A Area, it is reported by Local Placement Officer of the Dominion-Provincial Emergency Farm Labor Service P. H. Reimer, Abbotsford.

Approximately 37 acres of beans are being picked in the Upper Sumas, Huntingdon, Abbotsford, Mt. Lehman and Bradner districts, Mr. Reimer states.

This figure does not include a fairly large acreage in northeast Matsqui or the small "family" growers in the Huntingdon district along the International border.

There are at present about 70 pickers busy in the aforementioned fields. The growers are having some difficulty in securing pickers because the hop picking season is overlapping the bean harvest. The hop yards are offering pickers 5c a pound and the bean growers 1 1/2c.

Bean growers have not yet reported a shortage of help and nearly all pickers working have been secured locally.

Blackberries, according to reports received by Placement Officer Reimer, promise to be a good crop, larger than the substantial harvest last year. Some growers have accommodation for pickers and it may be necessary to try to secure "teams" of pickers from Vancouver and New Westminster.

PO Godfrey Kemprud, formerly of Portage la Prairie, is home visiting his parents at Matsqui before going to a Calgary depot.

Considering Some Things

Top Honors to B.C. Weekly Newspapers

OUT OF A TOTAL of thirty awards in nine classes of the Better Newspapers Competition conducted annually by the Canadian Weekly Newspapers Association, sixteen have this year been won by British Columbia weekly newspapers. Of nine first place awards, papers from this province carried off eight. Announcement of the 1944 winners was made Thursday at the annual meeting of the CWNA held in Winnipeg.

Most coveted among these awards and bringing the greatest honor to the newspaper winning it, and to the community in which the winning newspaper is published, is the Mason trophy brought to the Fraser Valley this year by The Chilliwack Progress. It is awarded to the best all-round weekly paper in Canada with more than 2000 circulation.

Needless to say, there was keen competition among the weekly newspapers of the 2000-and-over class for the distinction of "Best Weekly Newspaper in Canada." It is therefore the more gratifying to note that not only first place came to British Columbia but also second, third (in a tie with an Ontario paper), and an honorable mention. Penticton Herald placed second, Vernon News third, along with the Brampton, Ontario, Conservator, and Kamloops Sentinel received honorable mention among a group of contestants which one judge declared to be "of a very high order of merit."

In this same class top honors in the best editorial page and best front page competitions were also won by B.C. newspapers, The Penticton Herald winning the former and first, second and third places in the latter were taken by the Vernon, Penticton and Chilliwack papers, respectively.

Before graduating four years ago to the Mason trophy class, the Chilliwack Progress twice won the Clark Cup, leading award in the class of weekly papers with circulations of between 1000 and 2000. This year the Clark trophy was captured by The Comox Argus of Courtenay, Vancouver Island, with the Powell River Town Crier placing second and an Ontario paper, The Gananoque Reporter, third.

The Malcolm MacBeth Memorial shield for best editorial page in this class was won by the Town Crier with its contemporary, The Powell River News second and the Comox Argus third.

The West Coast Advocate, Port Alberni, B.C., won the Hugh Savage shield for best paper in the 500 to 1000 circulation class. Best editorial page went to the Creston, B.C. Review, and second to the Grand Forks Gazette, and best front page award to Port Alberni West Coast Advocate.

It is the privilege and pleasure of the publisher of this newspaper, as president of the British Columbia Division of the Canadian Weekly Newspapers Association, to congratulate the winners from this province and to say thank you to them for the consistent, week by week, hard work that resulted in such an impressive string of honors coming to member papers of the B.C. Division. We know how hard the competition is because we have been trying to build up a paper to competition standards for some six years.

British Columbia can take pride in the honors brought to it by the weekly press and can rightly give thought to the fact so strongly brought to attention this year that, by and large, the province is served by a class of weekly newspapers outstanding in all of Canada. This point is emphasized in a wire received from Winnipeg stating: "Convention thrilled with B.C. achievement and consistent records in competitions."

As the well known publisher of The Chilliwack Progress observes, in commenting on the distinction won by his newspaper, "Weekly newspapers are not published for the purpose of winning cups and trophies. Aside from the fundamental task of keeping publisher and staff members eating, each has a vital job to do in its community." And what Mr. C. A. Barber says of the aims of The Progress might well be said to be symbolic of the purpose of all in the fraternity of B.C. weekly newspaper publishers: "Our objective has always been and will continue to be that of helping build one of the finest communities in Canada and to have that community faithfully and adequately reflected as widely as may be through the pages of the best weekly newspaper it is possible to publish."

It is evident that British Columbia weekly newspaper publishers are making a real job of attaining this objective. Congratulations are due those whose leadership is so deservedly recognized and to the communities, equally honored, which supply the background of activity and support reflected in these newspapers.

volume. Holland did not reach her pre-war figure until 1923; Belgium and Sweden not until 1926. And Denmark, Holland and Sweden were neutrals and unharmed.

The Pacific war enters into the calculation, said Mr. Barry. In pre-war years Britain took from China, as the major supplier, a slightly larger volume of eggs in frozen and dried form than Canada would supply to Britain in 1944. Certainly, not until the war with Japan is concluded and its immediate damage repaired could that trade be resumed. If, in the meantime, Britain were to require those products, and they are reasonably indispensable, it might be expected that Canada would be asked to supply at least a portion of her needs.

Eggs, Postwar

"An industry which realizes that its future lies in its own hands is already well on the way to making that future a successful one," declared S. C. Barry at the recent Ontario Poultry Conference at Toronto.

Mr. Barry is the Associate Chief, Poultry Products Inspection and Grading Service, Dominion Department of Agriculture, and gave the assembled poultrymen an instructive review of the Canadian poultry industry of the present day, with a recapitulation of historical events of the past as a probable guide to the future.

Mr. Barry denied that the Canadian egg industry had been overdone, as the balance sheet of its 1944 operations would show, and as to the future, the conclusion of the contract with Britain in 1945 brings the industry to the end of the period of definite knowledge.

What of the tomorrow? For how long would it require Canadian egg production at or near the present level? To attempt to predict the length of that period in terms of time would be futile, he said. It might more accurately be estimated in terms of events.

The end of the European phase of the war by no means marks the end of the time when Britain will require considerable egg supplies from Canada, but history might be taken as a guide for determining the length of the adjustment period.

Following the last war, it was 1920 before Denmark began to approach her pre-war volume of exports to Britain and 1921 before she reached her previous

Provincial NEWS LETTER

IRON AND STEEL INDUSTRY

With a view to further developing uses for the B.C. softwoods, thereby encouraging expansion of industry and widening the scope of employment, through the British Columbia Industrial and Scientific Research Council, is conducting research into the possibility of producing specially treated B.C. softwoods thereby converting them chemically into a product equal to most hardwoods.

"Softwoods thus treated are expected to have a wide number of industrial uses," Hon. E. C. Carson, minister of trade and industry stated in making the announcement.

LUMBER EXPERIMENTS

Mr. Carson also stated that metallurgical investigations are now being conducted by the Research Council to determine more conclusively whether the charcoal from the softwoods in the Zeballos Valley will be suitable for an iron and steel industry in British Columbia.

AID TO DAIRYMEN

Hon. Dr. K. C. MacDonald, minister of agriculture, stated that in order to render assistance to livestock breeders and dairymen, a booklet containing practical suggestions that may help prevent the spread of mastitis among cattle, will shortly be available to dairymen, particularly in the Fraser Valley where some cattle have been reported to be infected.

COAL SITUATION

Hon. Mr. Carson, upon his return from the Peace River district, brought back a very enthusiastic report regarding the possibilities of coal and its disposition for the benefit of the people of this province. He expects to submit a recommendation to the Cabinet whereby the Peace River deposits may be utilized to a greater extent to supply the residents of the Peace River district, thus relieving to some degree the general coal shortage and in this way easing the situation for British Columbia generally.

WINS CUP

Miss Paddy Beldam recently won another cup for the egg and spoon race in the gymkhana in West Vancouver. Paddy is the holder of two other cups for horseback riding. Both were won at Chilliwack fair as the best girl rider under 12 years and also as the best girl rider under 17.

Mr. and Mrs. C. Beldam and Paddy, Miss Rosemary Bell-Irving of New Westminster, and Miss Phyllis Tretheway of Haney took a horseback trip to Chilliwack Lake. They reported wonderful fishing.

A WEEKLY EDITOR LOOKS AT Ottawa

Written specially for the weekly newspapers of Canada

In the next general election, voting among Canadian servicemen overseas will be supervised by seven special returning officers who have already been appointed. This, it is pointed out, doesn't mean that an election will definitely be held in the near future. You see, a large number of Canucks are with the British and other Allied units in every theatre of war and unless the special officers are on the job in the voting territories quite a time before a general election is ordered, necessary arrangements couldn't be made.

Church groups in Canada, with a realistic and patriotic foresight are taking cognizance of the fact that over 16,000 Canadian soldiers have married British girls and that their coming here to live will have an impact on our church life. Churchwomen of Ottawa, for instance, have issued an appeal to British war brides, printed on an attractive card, from which we quote just one paragraph: "We do hope that you and your husband will talk things over together and will together decide on a church home where you can worship and work as a family. It would be such a help to you and to us if you would at once make yourself known to the local church of your choice. We pray that you may both find the courage and wisdom that you need for these difficult days and for the days of peace for which we all long."

A feature of the government bill introduced in the House of Commons on veterans' insurance is that those who served in this war would be able to get up to \$10,000 insurance without medical examination at premium rates slightly lower than those charged by insurance companies for non-participating insurance. The maximum of \$10,000 is just twice that allowed under an act passed for veterans of the last war.

The Special Products Board wants to set right a possible misconception governing the sale by the producer of seeds of alfalfa, red clover, alsike clover, and alsike-white clover mixtures. They explain that maximum retail prices only have been set. These retail ceilings govern sales by one producer to another, but otherwise there is no set price to the producer. A grower selling seed to a seed dealer is free to bargain on the basis of the value of his seed in respect to condition, purity, viability.

There was a sharp increase in Canada's livestock marketings in the first six months of 1944, the number of graded hogs in in-

PROVINCIAL NORMAL SCHOOLS

THE two Provincial Normal Schools, Vancouver and Victoria, will re-open on September the 11th, 1944. The general requirement for admission is Senior Matriculation or its equivalent but, during the war, good students with University Entrance standing will also be welcomed. The fee, which used to be One Hundred Thirty-five Dollars (\$135.00) has been reduced to Fifty Dollars (\$50.00).

There is a number of Normal School bursaries available to students of good standing who may require financial assistance. Forms of application for such bursaries may be obtained from the Superintendent of Education or from the Principals of the Normal Schools.

There are no longer any fees charged for courses at our Summer School, attendance at which is required for the permanent certification of teachers after they have received a year or more's experience in the schools.

The public schools — elementary, junior high, superior and high — of the Province will re-open on Tuesday, September the 5th, 1944.

spected plants being 5,165,721 that increase being 60 per cent over the same period in 1943. Cattle slaughtering total 570,975 up 29 per cent. Sheep and lambs at 318,255 recorded an advance of 27 per cent. A decline of 16 per cent was shown in this period for dairy cattle exported to United States, when 18,769 went over.

Deliveries of eggs in 1944 to the Special Products Board to be made into egg powder for shipment to Britain was well over twice that of 1943. Total purchases made by the Board to the end of May, 1944, amounted to 58 million dozen as compared with 28.5 million dozen for the same period of 1943.

Few people realize that the prairie provinces of Canada are fairly heavy honey producers. In 1943 honey production of Canada, which was 39,492,000 lbs., the three prairie provinces produced 13,667,000, about a third. Saskatchewan was the heaviest

SHIPPING INSPECTION GIVEN BRADNER BULBS BY PLANT PATHOLOGIST

On request of a number of growers of the Bradner Bulb Growers Association, R. J. Hastings of the Plant Pathology section of the government experimental farm, Saanichton, was in the district at the weekend inspecting a shipment of bulbs before it is moved.

Mr. Hastings told The News that while this is the first time an inspection has been made of a shipment here before it is loaded, the procedure is carried on all the time in the Vancouver Island bulb growing district. He pointed out that a clause requiring this final inspection is not contained in the constitution of the Bradner association, but is worthwhile to assure quality, even though the market is clamoring for any and all bulbs available.

FARMERS MECHANIZE WARFARE AGAINST WARBLE FLY

Of interest in the Matsqui-Sumas-Abbotsford Area, where the farmers have been co-operating, in conjunction with those in other districts of the Fraser Valley, to oust the warble fly, is the system adopted by farmers of the Claresholm district of Alberta.

They organized and mechanized their warfare against the warble fly in a successful co-operative campaign described by Delbert Reynolds, operator of the District Sub-station at Claresholm.

Mr. Reynolds reports that forty farmers clubbed together to buy a power sprayer. A share in the sprayer cost a farmer \$12 if he had 50 head of cattle or less. For each additional 50 head, a shareholder's assessment was \$5. For the warble fly treatment, each shareholder was charged 7c per head, and most farmers had their cattle treated twice. Non-shareholders in the power sprayer paid 10c a treatment.

The farmers decided that the most efficient way of carrying out this warble fly control was to hire a man to treat all the stock in the area and they paid him 3c a head. He took the power sprayer to every shareholder's farm where he treated herds ranging from 15 to 450 head.

The result of this co-operative endeavor is that following the treatment of nearly 9000 cattle, the Claresholm district is this summer the home of contented cows but an unhealthy place for the warble fly.

Horticultural News

Department of Agriculture,
Horticultural Branch

Lower Mainland Reported August 16

The weather of the past two weeks has been generally cooler and dull with heavy showers.

Strawberry plantings are being cultivated and the majority of plantings are in excellent condition. Raspberries are practically over for this year although a few places are still making the last picking. Blackberries are plentiful and quality improved.

Plums are being handled in quantity and the picking of prunes will be under way in a few days. Pears are a heavy crop in most places and the picking of Bartlett's will commence next week.

A wide range of vegetables continue to be plentiful. Bean picking for the canneries is going forward rapidly and yields and quality are for the most part good. Hops are a promising crop and picking will start in the course of a few days.

Bulb growers have been handling some fine quality bulbs again this year and shipments are being made from the various districts. On some instances inspection is being made prior to shipment.

300 BOYS, GIRLS ATTEND FIELD DAY AT COLONY FARM

Instruction Given
To Junior Farmers

Approximately 300 members of the Fraser Valley calf, swine, poultry and potato clubs and their leaders attended the field day at Swift Canadian plant in New Westminster and Colony Farm on August 17. The districts represented were Agassiz, Mission, Chilliwack, Sumas, Abbotsford, Langley, Surrey and Richmond. The program at both places had been well arranged and each demonstration was carried out right on schedule. Those in charge of the various departments were:

Egg candling and grading, Inspector Anton Thornfield, Dominion Department; dressed poultry grading, Inspector S. R. Howell, Dominion department; animal diseases, Dr. E. C. Chamberlayne, Health of Animals Branch; swine carcass judging, Messrs. R. C. Trimble and Harold Steeves, Dominion live stock graders; Holstein judging classes, Tom. K. Berry, Langley Prairie; Wallace V. Mufford, Langley Prairie; H. Steeves, Vancouver; Art. Hay, Colony Farm.

Potato judging and grading, H. S. MacLeod, Dominion potato inspector; Ralph Cudmore, CIL at New Westminster; Sid Gray, Club Coach, Milner; poultry judging competition, Prof. E. A. Lloyd of UBC.

The general program was supervised by G. L. Landon, district agriculturist, and George A. Muirhead, assistant district agriculturist, New Westminster.

Speakers at Colony Farm included John Dunsmuir, president Vancouver Exhibition Association, and Prof. H. M. King, the chairman Junior Club Committee, Vancouver Exhibition Association.

Votes of thanks were extended to O. W. Pearson and George Hewson of Swift Canadian Co., and Supt. P. H. Moore and his assistant, Art Hay, of Colony Farm for an excellent field day.

Farm Notes

The Dominion department of Agriculture has suggested that Canadian poultrymen should plan to obtain their egg production by better poultry husbandry from more efficient poultry rather than from increased numbers of birds.

Only finished poultry lends itself to effective display in competition with other meats.

W. J. Saunders of Mashall, Sask., and Matlock Brothers of Reyleigh, B.C., were recently elected Robertson Associates of the Canadian Seed Growers' Association, as a reward for their long and distinguished service to the Association.

No one farmer can fight the warble fly successfully. He can spray his herds and scrub their hides and squeeze their warble lumps in vain, unless his neighbors take the same precautions. If one single nearby herd is left untreated, its warble flies will migrate to every other farm in the district pestering the cattle, burrowing through their hides, and lowering their milk flow.

POULTRY FLOCK APPROVAL STARTS AGAIN SEPT. 1ST

Blood testing of poultry flocks in B.C. will get under way again Sept. 1. A course to train inspectors for the rapid whole blood test will commence at the University of B.C. on Tuesday, under supervision of Dr. S. N. Wood.

Supervision of both the whole blood rapid test and the tube agglutination test will be done by Dr. Wood.

Approval and inspection of hatchery flocks will be done by the B.C. department of agriculture, while the ROP flocks will be done by the Dominion department of agriculture.

Economists of the Dominion department of agriculture seem to fear another farm land boom is in the making and are warning farmers about what happened in the last war and after. It is pointed out farm land values are on the upgrade again. The Dominion Bureau of Statistics claims the average value of farm land across Canada, which was \$24 in 1935 and 1940, has risen to \$28 in 1943. There is a moderate land boom in all provinces except Saskatchewan and possibly British Columbia. It is desirable that there will be recovery from the low levels of the 30's but speculation in wartime, they warn, is another thing. Land rose to \$48 an acre in 1920, but 15 years later was selling for half the price.

BE TRIP-WISE THESE DAYS!

We're handing out these strong hints as much for your comfort as anything. Of course, it helps us, too. Look over the list before you decide upon that next trip:

1. Make it a mid-week journey if possible—NOT week-end.
2. Get tickets at main terminals—and round-trip tickets ALWAYS when you need them.
3. Don't jam into those rush-hour crowds.
4. Help yourself another way—have your tickets ready—or the correct change.
5. Ask for travel information at the office BEFORE the trip, and save time.
6. Keep smiling—this won't last forever.

Simple rules, aren't they?—but they make all the difference to both of us in wartime travel.

Mrs. F. Cowin, Mrs. W. Sales and Muriel have motored to Pen-ticton for a brief holiday.
Mr. and Mrs. A. Boyd were Vancouver visitors Saturday.
Pte. A. Siep, who has been station-ed in northern B.C., is on furl-ough and spending a few days with his parents at Pine Grove.
Master Gordon Page has re-turned from a holiday spent in Vancouver.

Mr. and Mrs. T. Ruben, with Peter and David, were holidaying in Vancouver, and upon their re-turn will have their little niece, Barbara Findlay, as a guest.
Master Jerry Williams has re-turned from a holiday spent at Hope with relatives.

Mrs. J. Smith left Sunday for the prairies where she will be joined by her husband, Pte. Smith who is at present stationed at Wainwright, Alberta.
Mary and Bobby Lundquist have been in New Westminster spending a few weeks with their grandparents.

Mrs. Detwiler is a patient in M-S-A Hospital recovering from an appendix operation.

Ken Detwiler arrived home on Wednesday from Glover Bay where he is employed at logging. He expects to return shortly.

A birthday party was held in Pine Grove hall on Friday afternoon in honor of Mrs. A. Ferguson, who entertained at luncheon. Fifty guests spent a social afternoon with lots of ice cream for the kiddies.

Huntingdon

Recent visitors at the home of Mr. and Mrs. Blanchard and family were Mrs. Ferguson and Miss Marty Kruger of Vancouver.

Miss Eileen Russell, who has spent the past few weeks with Mr. and Mrs. W. Knox, returned to her home in Vancouver.

Mrs. G. Runzer was a visitor to Chilliwack during the week.

Mrs. W. T. Waterston and her daughter spent a few days in Vancouver.

Marion Kruger of Vancouver, who has spent the past few weeks with Miss Jean Blanchard, has returned home.

Mr. and Mrs. W. J. Fraser were recent visitors to Harrison Mills.

Mr. and Mrs. Allan Crouter and family were visitors to Van-couver during the week.

Mr. Thompson is visiting his sister, Mrs. C. Wright.

Mrs. Sutherland of Vancouver spent the past week with Mr. and Mrs. W. J. Fraser.

Mt. Lehman

At the last Red Cross meet-ing it was decided to store waste paper in Mrs. Forester's garage, to be collected on the date an-nounced in the A. S. & M. News. Work turned in for August in-cluded 12 comfort bags, 14 ste-ile gowns, 2 women's blouses, 8 hot water bags, 1 turtle-neck sweater, 7 handkerchiefs, 4 pairs children's socks (donation), and 4 men's pullovers.

Miss Eileen Nicholson is spend-ing three weeks as the guest of Mrs. George Bell in Queen Char-lotte Islands.

Miss Shirley Nicholson has re-turned from a holiday in Van-couver.

LAC Hubert Farber visited his friends in Mt. Lehman recently.

LAC Byron Lehman left Sun-day after spending leave with Mr. and Mrs. J. P. Carr at Mt. Lehman.

Mr. and Mrs. Lloyd Gustafson and family of Arlington, Wn., were guests of Mr. and Mrs. S. Nicholson Wednesday.

Mr. and Mrs. Gus Pierson and family of Long Bay were recent guests of Mrs. Pierson's parents, Mr. and Mrs. M. MacLean. Other guests have been Mrs. E. Nich-olson of Kamloops and Mr. and Mrs. D. Cummings of Murray-ville.

LAC Gordon Calvert is home this week from Winnipeg.

**Sorry . . .
but the foot
is too big
for the shoe**

While demands for telephone service have increased steadily during the war, the equipment necessary to provide service hasn't. The Telephone Company has been prevented from making any material additions to its system. That's why so many people have to do without telephone service these days. The foot just won't fit the shoe.

Factories that used to produce telephone equipment are now needed to fill war orders. The telephone situation is likely to get worse before it gets better. In the meantime, essential needs for telephone service, particularly in connection with the war effort, must come first.

Ammunition for Hunting Allowed

An appeal to sportsmen to show sportsmanship is made in connection with the recently announced allotment of 100 rim fire cartridges and 50 shotgun shells.

Before a sportsman can draw the ammunition he has to produce his gun registration certificate as well as his ordinary ration book at his local ration board.

Application for ammunition allotments to sportsmen must be made to the local ration boards before September 30.

No centre fire ammunition will be available for sportsmen as it is all required for essential users.

George F. Pratt, secretary of the M-S-A Ration Board, told The News that applications started rolling in from local sportsmen on August 15, opening day for applications. Majority of the requests are for shotgun shell rations, he declared. Most applicants are coming in for their ration slip, but fail to bring their ordinary ration book along with their gun registration. There is nothing he can do until the ration book is produced.

"There has been a suggestion", said O. H. Bell, regional ration superintendent, "that persons who own registered guns but who do not use them may be influenced by friends to obtain their quota and pass this ammunition on. It can not be too strongly emphasized that there is only a limited supply of ammunition available and any such non-sporting tactics would simply mean curtailment of supply to those who are entitled to it.

"Last year," went on Mr. Bell, "no ammunition was available for sportsmen. Available stocks were allotted to essential users such as trappers, prospectors and farmers who suffered from depredation of predatory animals. This year, with a little improvement in the

tric light rates on the Lower Mainland during 1945, through the medium of a non-billing period.

It was explained by the Premier, after consultation with the public utilities commission, that no assurances could be given of a definite reduction in the monthly rates on the Lower Mainland due to the fact that it is impossible to determine, at the present time, how permanent the increase in electrical consumption will be.

Credit Due Industries

At the present time, the non-billing period, particularly insofar as the Lower Mainland is concerned, is made possible by the very heavy consumption of electricity due to the expansion of wartime industries. If the recession from this point is not too great at the end of hostilities, the PUC expects to be able to recommend a definite lower schedule of rates.

The reductions in rates effective this fall are in conformity with the announcement made by the Premier during the last session of the Legislature when he reviewed the situation with respect to the operations of the BCER and intimated that the public utilities commission will continue its investigation and that "in all probability a further reduction will be granted."

\$1,000,000 Saving

It is estimated that the saving this year alone to consumers

ammunition supply, provision has been made to allow sportsmen a small amount but it should be born in mind that Canada's small arms ammunition plants are primarily concerned in rushing supplies to the forces in France, Italy and other battle fronts."

through non-billing will be more than \$1,000,000, a sum greater than that of last fall. The savings to the various areas affected will be on the same proportion as last year. Of the total reduction given last fall, the Lower Mainland received \$55,422.17 or 6.1% of the gross revenue of the BCER on the lower mainland.

We did it at VIMY... and CAEN-

**WE'LL DO IT AGAIN-
but we need YOUR HELP!**

Yes, we need your help . . . and need it badly.

This is the biggest job we have ever tackled! Everything depends upon Victory. Canada's Army needs volunteers NOW. And, that means you and you and you!

Wear Canada's Badge of Honour on your arm. You'll be proud of it, so will your friends.

Every man who is able has got to do his bit!

Maybe you don't think this means you . . . that it's a job for the other fellow.

If you do, you're wrong. It's your war, too . . . a war for every man who is a man . . . for everyone who has a stake in Canada.

Yes, this means you all right and we need you now for the months of intensive training to make you fighting-fit. We did it before and we can do it again . . . but we need your help.

Recipes

Appetising Jams, Jellies & Pickles

Jams, jellies and pickles—not essential foods perhaps—but how much they can add to the meal interest!

Everyone who counts on a home-made supply will be interested in a folder called "War-time Jams, Jellies and Pickles," which may be obtained free of charge from the department of agriculture, Ottawa. It contains information that will be equally helpful to the beginner and to the experienced housewife and a collection of tested recipes that are especially good.

These recipes are chosen from this new folder.

Peach Jam

6 cups peeled, sliced peaches
3 cups sugar
1 tablespoon cider vinegar
Mix all ingredients. Let stand 1 hour. Cook slowly until thick, about 20 minutes, pour into sterilized jars, cool and seal. Yield: about 2 pints.

Pickled Spiced Beets

15 large beets
1 teaspoon celery seed
1 tablespoon salt
3 large white onions
1 teaspoon mustard seed
6 pieces cinnamon bark, 1 inch long
4 cup brown sugar
5 cups vinegar
Boil beets until tender, peel and slice. Peel and slice onions and mix with beets. Pack into sterilized jars. Add spices to vinegar, bring to boiling point and pour over beets. Seal. Yield: 4 pints.

Barbecue Sauce

2 quarts ripe tomatoes
3 large onions, chopped
4 sweet red peppers, chopped
2 carrots, scraped
3 cups vinegar
1 cup water
4 tablespoons brown sugar
2½ tablespoons salt
2 teaspoons allspice
2 teaspoons cloves
2 teaspoons cinnamon
2 teaspoons nutmeg
¼ teaspoon cayenne
Cut tomatoes into pieces (do not peel), mix all ingredients together and bring to a boil. Cook for 1 hour, or until soft enough to pass through a sieve. Strain and bottle. Yield: 4 pints.

Hot Dog Relish

3½ pounds (15 to 18) sweet red peppers
3 pounds (12 to 15) green peppers
3 pounds (12 to 15) medium onions
4 cups vinegar
1 cup sugar
1 teaspoon mustard seed
1 tablespoon dry mustard
1 tablespoon celery seed
2 tablespoons salt
Wash peppers and remove the seed cores. Peel onions. Put the vegetables through food chopper, using coarse knife. Place in large preserving kettle, cover with boiling water and let stand 5 minutes. Drain thoroughly. Add vinegar, sugar, spices and salt; cook until vegetables are tender, about 10 minutes, stirring occasionally. Pour into hot sterilized jars. Seal. Yield: 6 pints.

BUY WINTER SUPPLY OF FIREWOOD NOW SAYS CONTROLLER

"Get in your winter supply of firewood now," is the advice given by Timber Controller Alan H. Williamson.

"While it is true that last winter was remarkably mild, and fair reserve stocks have been built up, total stocks throughout Canada are still below normal," he said. "Shortages of transportation, scarcity of truck drivers and other factors make it imperative for those who heat their homes with wood to stock up now while supplies are adequate."

DRUGGISTS TO STAGE WAR STAMP DRIVE DURING SEPTEMBER

Quota Based On Ammunition Needs

Organized by the "Sea Going Hacks," the association of drug travellers, under the chairmanship of Ben Franklin of Vancouver and supported by the drug wholesalers and manufacturers, the retail druggists of British Columbia and the Yukon will devote their merchandising skill during the month of September to the sale of War Savings Stamps.

B.C. Always Leads

The coming drive will be the third annual national campaign sponsored by the druggists. In both previous contests British Columbia-Yukon druggists led the entire nation, both in stamp sales per capita and in percentage of quota exceeded.

Last September, with a quota of \$21,000, the drug trade here rang up sales of \$100,024, or 476% of their quota, far outstripping their nearest competitors, Ontario druggists.

During the coming drive, the druggists of B.C.-Yukon have been given an assignment of supplying our armed forces with 60,000 20mm shells which cost \$1 or four War Savings Stamps per round.

In addition, they will endeavor to secure pledges from their customers sufficient to provide a similar number of these shells every month of the year. As the 20mm cannons are used by all the three services, these shells will be used in enormous quantities during the present "knock out" phase of the war.

In view of their past record, druggists anticipate little difficulty in achieving their quota, and will make their real objective the leadership of Canada for the third straight time.

Valuable Prizes

Already druggists in most of the centres of B.C.-Yukon are laying promotional plans to make War Savings Stamps their best-selling line during September. The chief feature of the campaign here will be a province-wide drawing. Purchasers of the stamps through drug stores will be given free tickets entitling them to chances on many valuable prizes of hard-to-get merchandise.

Many rural women are operating the family car these days. Thus for their guidance the Consumer Branch passes along a word of counsel on the new ruling on selling a car or trading it

BUDDY ROBERTS WINS 'BEST OF MALES' AT DUNCAN CLUB EVENT

Alberstan Morning Wings, cocker spaniel of Mr. and Mrs. Jim Roberts, Abbotsford, who goes by the nomiker "Buddy", brought home the blue ribbon for "best of males" at the Duncan Kennel Club dog show on Wednesday. He also was decorated with a reserve winner ribbon.

Today he is being shown at the Victoria club show, and his owners expect he might come home with some more ribbons.

SUGAR SAVED BY CANNING METHOD

Matching the sweetness of the syrup to the sweetness of the fruit being canned saves sugar, say the experts in the Consumer Section of the Dominion Department of Agriculture. So does a little time spent in estimating the amount of syrup needed to can a batch of fruit.

They suggest using a very thin syrup for really sweet fruits like pears—a thin or moderately thin syrup for peaches and sweet plums and a medium syrup for sour fruits.

Large fruits such as peaches and pears will take about 1½ cups of syrup per quart sealer while small fruits only need one cup per quart. The proportions of sugar and water for the various syrups and the yield are:

Very thin syrup—1 cup sugar, 3 cups water, makes 3½ cups of syrup.

Thin syrup—1 cup sugar, 2 cups water, makes 2½ cups syrup.

Moderately thin syrup—1 cup sugar, 1½ cups water, makes 2 cups syrup.

Medium Syrup—1 cup sugar, 1 cup water, makes 1½ cups syrup. To stretch sugar farther, half honey and half water may be used in making any of these syrups.

in on another one. The price asked for sale of a car, or paid for purchase of one, must be more than that authorized by WPTB. Moreover, the price must be based on the condition of the car and if it is not in reasonably good shape, reduction from the ceiling price must be allowed at the time of sale. A statement signed by both the seller and buyer must be filed within four days of the date of sale with the nearest office of the WPTB where forms are available. For the protection of anyone buying a used car, all models must be tagged with a label giving a complete description of the vehicle and the sale price.

EVER walk into an auction and find yourself getting excited and wanting to bid... a victim of "auction fever"? Wartime conditions can breed "auction fever" if we let them. Everything is in short supply. Many more people are able to bid.

But... if prices are bid up... all our dollars will lose some of their value. Even necessities could get out of reach.

- ▶ What use is more money, if living costs go up still higher.
- ▶ What good are higher returns to business, if they are offset by higher costs.
- ▶ What does the farmer gain if higher farm prices lead to depression and low prices later.

We cannot continue a full war effort and prepare to meet the problems of the post-war period unless we maintain a stable and reasonable price level now.

... The building of a great car
a great industry..a mighty war plant

In 1904 when a little group of Canadian business men decided to found a company for the manufacture of automobiles, they little dreamed what an historic step they were taking. They were convinced that the motor car would one day be an important means of transportation, though most people at that time looked upon it as a rich man's plaything. But it is doubtful if they foresaw that in forty years their little plant would grow into an industry employing thousands of men, supplying cars to millions of men and women through hundreds of Ford dealers. Little did they dream that in a future war of nations, Ford Motor Company of Canada, Limited would become the Empire's largest single source of military transport.

1904—Ford Motor Company of Canada, Limited commenced operations in a small building formerly used as a wagon factory. Seventeen men were employed, and the cars at first were assembled from parts imported from Detroit. In the first year of operation, 117 Ford cars were produced.

1908—After two years of exhaustive tests, the Company decided to standardize on the Model "T". Ford Car, using mass production methods. With increasing demand, the plant was expanded to ten times its former size. By 1912 the number of employees had increased to 565.

1913—Ford of Canada first started building its own engines thereby creating a new major outlet for Canadian raw materials. Since its introduction five years earlier, the Model "T" engine had already become famous for its simplicity of design and absolute dependability under all conditions.

1915—By this time there was a chain of more than 550 Ford dealers and nine Ford Branches across Canada. The Company always believed it owed a debt to the public—that of providing expert service and genuine replacement parts for Ford cars as long as those cars were in operation.

1916—Plant expansion continued as demand increased. The War, 1914-1918, called for added output. In 1916-1917, production reached a new high of 50,000 units as a new branch assembly plant went into operation at Toronto, Montreal, Winnipeg, London and Saint John.

1927—After completely re-tooling the entire plant, Ford of Canada came out with the new Model "A". The car's modern design, power, speed and low cost operation won for it immediate acceptance. Buyers made their selection from several different models with color and upholstery options.

1932—Saw the introduction of the Ford V-8 engine. For the first time, a powerful, smooth, V-type eight-cylinder engine was made available to Canadian motorists in the popular price field. Its economy, simplicity and outstanding performance made it the talk of the automobile world.

1939—70% of all automobiles exported from Canada were built by Ford, more than half of the entire Ford output going abroad. The huge export business, started with the founding of the company was built up in every part of the British Empire with the exception of the British Isles.

1940—Ford of Canada was already producing a large volume of war equipment and heavy shipments were made to many different battlefronts. As early as 1936 the groundwork for the production of military vehicles had been laid in closest co-operation with the Department of National Defence.

1942—The last passenger car for the duration came off the assembly line, climaxing a series of manufacturing curtailments of the previous 12 months. Now, until Victory was won, the Company's huge production was to be still multiplied but strictly confined to war equipment and essential vehicles.

1943—Ford employees had increased to 15,637, double the number prior to wartime. 4,300 Ford employees had gone into the Armed Services. 15,000 blood transfusions had been given at the Ford Clinic. Employees had invested \$10,000,000 in Victory Bonds and War Savings Certificates.

1944—Midnight, August 17, the Company's 40th anniversary—and out of its mighty war plant comes a Universal Carrier, the 27,678th of its kind, the 338,978th Military vehicle for World War II, the 1,893,162nd unit produced by Ford of Canada during its forty year history in this Great Dominion.

FORD MOTOR COMPANY OF CANADA, LIMITED

LARGEST PRODUCERS OF MILITARY VEHICLES IN THE BRITISH EMPIRE
